EDUCATION ON TRAUMA PREVENTION

By introducing Trauma Prevention into schools the number and severity of accidents occurring can be reduced by up to 50%. For this reason, we continued the presentations and distribution of brochures to students, teachers and Parent Associations. To date we have spoken to 44.075 children and 3.060 teachers and parents.

“Alpha Bank” adopted the sponsorship of our Program on Paediatric Trauma Prevention for yet another year (with the amount of € 8.000) together with the “Friends of Pediatric Trauma Care” (with the amount of € 2.000). From 1st of November 2017 until 31st of October 2018 we held 44 presentations which were attended by 3.196 children and 50 parents.

Our brochures were distributed to Schools, Kindergartens and Parent Associations in the greater Attika area during the presentations. They were also distributed to many other Associations, Schools, Kindergartens and hospitals throughout Greece.

During the course of the year we printed 20.000 brochures of “Summer & Holidays with Safety” (Sponsor: INTERAMERICAN), cost € 3.000, and 20.000 brochures of “Respect for Animals” (Sponsor: “Friends of Pediatric Trauma Care”), cost € 3.000.

We delivered brochures on Trauma Prevention and toys to the Charity “Aegean Team” in order to be distributed on the islands which they visited during their 24th crossing of the Aegean Sea (Fourni, Thymaina, Patmos, Donousa, Amorgos, Folegandros, Koufonisi, Ios).

HIGHLIGHTS

We are pleased to announce the new collaboration of our Charity with THE HELLENIC INITIATIVE AUSTRALIA. It is very moving that the Greek expatriates in Australia are supporting our country during these trying times. THI Australia, donated a total of \$ 48.000 to cover the specialized medical equipment purchased for the Paediatric Clinics and the Neonatal Units of the General Hospital of Kastoria and the General Hospital of Ioannina "G. Hatzikosta". We warmly thank THE HELLENIC INITIATIVE AUSTRALIA for its invaluable contribution, thanks to which we have been able to implement two crucial projects for the health of our children.

We are glad that through our Charity we have launched a new solidarity partnership between the Private and the Public Sector. This year, for the first time, we managed to deliver used medical equipment, consumables and hospital equipment (beds, tables, etc.) to public hospitals which were offered by private Paediatric Clinics. The collaboration of the Private and the Public sector enables us to further expand our work to meet the needs of the State Hospitals.

We especially appreciate the fact that our work in Public Hospitals is recognized and widely acclaimed. The Paidon Pentelis Children's Hospital received the Bronze Award for Health at the Mobile Excellence Awards 2018 for the innovative digital e-Priority service, which was established with the sponsorship of "Alfa Beta Vasilopoulos" and the contribution of our Charity. This new service will serve hundreds of thousands of children and their families, free of charge, greatly reducing their waiting time in hospitals.

The Stavros Niarchos Foundation supports our work by covering the salary of an employee at "Pedtrauma" for two years. This donation is invaluable as it enables us to reduce our operating costs.
