

Κτίμα Γ. Κοκοτώ

Press Release

Sunday, 1st November

Charity Bazaar at Ktima Kokotou

On Sunday 1st November 11.00 – 19.00, to celebrate the feast of St. George the “Intoxicator” Ktima Kokotou in Stamata (www.ktimakokotou.gr) welcomes young and old for a day out in the country with activities for all and all-day food. We will also be hosting a bazaar in support of “Pediatric Trauma Care”. “Pediatric Trauma Care” is a non-profit, non-governmental organization and its sole purpose is to raise awareness on children's accidents in Greece, reduce their number and severity and to improve care once an accident has occurred.

Activities:

- Our winemaker will give guided tours of the vineyard and winery
- Take a walk around the estate with our agronomist, visit the olive grove, vegetable garden and beehives, all organically cultivated
- Adventure Park by Trekking Hellas for the children
- Interactive games for children in the vineyard and garden
- Doll-making workshop
- Face painting

Charity Bazaar with:

Wine, honey, jewelry, bags, decorative items, candles, teas from aromatic Greek herbs, cosmetics, knitted items, hand painted porcelain, dolls, Turkish towels, Christmas decorations, herbs & spices, baked goods, handmade chocolates, S. African delicacies, jams, delicatessen, plants, secondhand stall, popcorn, candy floss, raffle.

Highlight:

A. Ismailos S.A. is celebrating it's 25 years and will be presenting the “new generation SUVs” by Mercedes-Benz . They are also offering a mountain bike to a lucky winner.

MENOO will be serving food all day long: coffees, teas, sandwiches, souvlaki, salads or reserve for the set menu which will be served in “Oinodiadromes” (tel. 2106204919 – 6936883126).

Supporters:

"Pediatric Trauma Care" is a non-profit, non-governmental organization and its sole purpose is to raise awareness on children's accidents in Greece, reduce their number and severity and to improve care once an accident has occurred. Each year approximately 500,000 children are injured in accidents, of which about 700 die and 3000 suffer permanent disabilities. In order to reduce this unbelievably high number "Pedtrauma" has organized and developed the following sectors:

Education of children on Trauma Prevention and the handing out of leaflets to this effect; Training and further education of doctors, nurses and paramedics through Advanced Pediatric Life Support seminars; the Purchase of essential Medical Equipment needed by the Pediatric Hospitals; and the Creation of Trauma Centers in the main Children's Hospitals throughout Greece. We have already managed in the last few years to build and equip 6 Trauma Centers.

From 2010 up to the present date over 200.000 children have benefited from our Charity.
